

Product introduction

Ethylene propylene copolymer polymer with degassing and extinction properties

Chemical composition

Ethylene propylene copolymer

Feature advantages

1. Excellent anti slip performance
2. Significantly improve adhesion
3. Used for degassing and extinction

Recommended use

1. Powder coating;
2. Solvent based coating;
3. General industrial paint.

Recommended dosage

0.1-2% of the total coating amount.

Technical data

Melting point (°C):	149
Average particle size (D50):	8±1
particle size (D90):	13±1
density: (g/cm ³)	0.9
Exterior:	Fine white powder

Processing guide

1. Join in the latter part of production;
2. Mix and disperse at medium to high speed.

Storage and transportation

1. Cool and dry and ventilated, below 50 °C, not close to fire;
2. The shelf life of the sealed container is two years.

Package

20 kg packaging.

We provide these data and technical advice with our existing knowledge. However, because of the different application environment, please users according to the test application, we can not guarantee all the circumstances.
