

Product introduction

1. Patented products;
2. Spherical polyethylene ultrafine wax powder.

Chemical composition

Fluorine modified PE

Features and advantages

1. Excellent transparency;
2. More excellent surface feel;
3. Lower friction coefficient and smoothness;
4. More excellent lubrication;
5. More excellent scratch resistance and abrasion resistance.

Recommended use

This product is suitable for various plastics, coatings, inks and cosmetic systems.

Recommended dosage

1-5% of total resin solids.

Technical data

Melting point (°C):	115
Average particle size (D50):	5-7
Average particle size (D90):	10-13
Proportion:	0.96
Exterior:	Fine white powder

Processing guidance

1. Add in the post production stage;
2. Mix and disperse at medium to high speed;
3. Grinding should be avoided as it can damage its spherical morphology.

Storage and transportation

1. Cool, dry and ventilated, below 60°C, and not close to fire;
2. Shelf life in airtight containers is two years.

Package

20 kg packaging.

We provide these data and technical advice with our existing knowledge. However, because of the different application environment, please users according to the test application, we can not guarantee all the circumstances.
